

## Used Car Seat Checklist

*At iRideSafe.com we believe that a car seat is the single most important purchase you could ever make for your child. Because when used correctly, it just may save your child's life.*

*We know that purchasing a new car seat is a big investment for a young family. In order to save money many parents consider using a used or second-hand car seat. For safety reasons, it is not recommended that you borrow or buy a used or second-hand car seat. However, if you must do so for any reason, please refer to the iRideSafe Used Car Seat Checklist below.*

*Read through each statement and if you know, without a doubt that each one is true, then the used or second-hand car seat MAY be okay to use.*

- ◆ The car seat has NEVER been involved in a car crash.
- ◆ The car seat has all the labels attached. And you can read all labels including the manufacture date and model number.
- ◆ The car seat is NOT expired.
- ◆ The car seat has NO recalls. If you find there is a recall you should contact the manufacturer immediately to fix the problem.
- ◆ The car seat has ALL of its parts.
- ◆ The car seat has its owner's manual or instruction booklet attached.

*If in doubt about using a used or second-hand car seat, DON'T USE IT!*

*It is recommended to purchase a new car seat.*

*Your child's life and his or her safety is riding on it.*
